Frauen helfen Frauen Wetterau

“Frauen helfen Frauen Wetterau” is an association aiming to support women threatened with or affected by violence and to provide them with a refuge.

The association has been running a women’s shelter and a counseling and intervention centre for many years.

Despite public subsidies, the association is dependent on donations.

At home

Are you or your children exposed to humiliation, insults, threats, violence?

You do not have to endure such a situation!

The Protection against Violence Act (Gewaltschutzgesetz) has been in force since 1 January 2002.

This law strengthens your rights and your ability to protect yourself.

We support you in asserting your rights under the Protection against Violence Act. Under this law, it is no longer the victims of violence who need to leave their home, but the perpetrators.

Counseling centre

- We provide counseling and support to women who are seeking help to end domestic violence.
- We provide advice and information to professionals, relatives and cooperating authorities and institutions.
- We provide counseling on all forms of domestic violence, be it of a psychological, physical, sexual, economic, or social nature.
- We also advise on issues such as stalking, impending 'honor' killings, forced marriage and digital violence.
- Our counseling services are available to all women, regardless of origin or residence status.
- Our counseling services are provided free of charge and on a non-denominational basis.
- All information is treated as confidential and, if desired, provided anonymously.
